DOCKET NO. SDWA-10-2013-0080 / Yakima Valley Dairies

Eric:

This communication is provided on behalf of the Yakima Valley Dairies, including Liberty Dairy LLC and its associated dairy facility H&S Bosma Dairy.

Please find attached for your use a copy of the report summarizing the completion of lagoon abandonments for Lagoons 8, 9, 19 and 20. Soil removals at all four lagoons complied with the removal target of 45 mg/kg (sum of ammonia-N and nitrate-N). The average final nitrogen concentration in the soils at the base of the abandoned lagoons ranged from 5 to 16 mg N/kg.

Please contact me directly if you have any questions or concerns.

It's been a pleasure working with you on this project.
